PROJECTS:

1) **Project Name** : Water Level Indicator

Team Members : 1

Role Played : Team Leader

Description :

The Water Level Indicator employs a simple mechanism to detect and indicate the water level in an overhead tank or any other water container. The sensing is done by using a set of four wires which are placed at four different levels on the tank walls in increasing order of height, common wire is placed at the base of the tank. The level 4 represents the “tank full” condition while level 1 represents the “tank empty” condition.
